CAREER OBJECTIVE

A dedicated Computer Science Engineering student with a strong foundation in Java, data structures, algorithms, and software development. Passionate about problem-solving, I am eager to apply my skills in software development and AI contributing to innovative and impactful projects.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering(AI-ML), JNTUH.** 2022-26
Vardhaman College of Engineering, Shamshabad CGPA: 8.54
- **Intermediate in MPC, Telangana Board of Intermediate Education (TGBIE).** 2020-22
Narayana E-Techno School Kushaiguda Hyderabad Percentage: 91.6
- **Tenth Class, Telangana Board of Secondary Education (BSET).** 2020
Narayana High School CGPA : 10

INTERNSHIP

- **DevOps Intern** July 2025 - Present
Evernorth Health Services India Offline
 - Role: In-depth understanding of Azure DevOps services, including Repos, Pipelines, Boards, Artifacts, and Test Plans.
 - Proficient in designing, implementing, and managing CI/CD pipelines for automated build, test, and deployment.

ACADEMIC PROJECTS

- **Crop Recommendation and Smart Irrigation Prediction System**
A machine learning and IoT-based smart agriculture system for crop recommendation and irrigation prediction with 97.5% accuracy.
 - Developed a hybrid machine learning framework using Higher-Order Vector Bayesian (HOVB) and Random Forest Regressor for crop recommendation and smart irrigation prediction.
 - Analyzed agricultural parameters such as N, P, K, temperature, humidity, pH, and rainfall to recommend suitable crops and optimize water usage.
 - Achieved 97.5% accuracy across 22 crop categories while enabling sustainable and precision farming practices.
 - Technology Used: Python, Machine Learning.
- **Digital Image Steganography Tool**
A Python-Flask based web application to encode and decode hidden messages in images.
 - Implemented image encoding and decoding using the Least Significant Bit (LSB) technique with the PIL library.
 - Designed a responsive frontend using HTML, CSS, JavaScript, and ensured functionality with Flask backend.
 - Technology Used: Python, Flask, HTML, CSS, JavaScript, PIL (Pillow).

KEY SKILLS

Languages: Java, Python

Databases: Relational Database(mysql)

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System.

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

CERTIFICATIONS

- **Smart Coder Certificate**, Smart Interviews, April 2025. Achieved a global ranking of 724 among 42248 students. [|| Link](#)
- **Infosys Springboard Java for Beginners Certificate**, Infosys, January 2025. [|| Link](#)

CERTIFICATES

- **Fundamental Algorithms: Design and Analysis**, Swayam, NPTEL, January - April 2025. [|| Link](#)
- **Programming in Java**, Swayam, NPTEL, January - April 2023. [|| Link](#)
- **Introduction to Natural Language Processing**, Great Learning, November 2024. [|| Link](#)

ACHIEVEMENTS

- Solved 500 plus problems on DSA across platforms (LeetCode, CodeChef, Hackerrank, CodeForces), ranking in the top 10% on LeetCode with ID Vijay_17.
- 3 star at CodeChef with highest rating of 1624 with ID vijay_1702.
- Achieved Gold+Elite badge in NPTEL Fundamental Algorithms: Design and Analysis course.
- Achieved 6 badges in coding platform, Hackerrank with ID vijay2005_pogula.
